

# ST.RIZING

**Phosphating  
for  
Function**

**Films to Form**

Technology transfer from Germany.

**ST.RIZING CO.,LTD.**  
[www.strizing.com](http://www.strizing.com)

**Low  
application  
temperature**

**Perfect  
microstructur  
e for drawing/  
cold heading/  
forging**

**Perfect  
surface quality  
after forming**

**Perfect  
phosphate  
layer with  
reproducible  
quality**

**ST.RIZING  
Coat System  
for Wire**

## **ST.RIZING-Coat-Phosphating agents**

---

**Products particularly developed for the phosphatization of wire. Applicable for dry and wet drawing of steel wire as well as for cold heading wire. Approved for years and used by leading companies.**

**ST.RIZING-Coat 6-range      Very low formation of sludge and incrustations**

**ST.RIZING-Coat 7-range      Iron-free products for the fast continuous pass  
line (15 sec)**

**ST.RIZING-Coat 8-range      Iron-free**

## **ST.RIZING-Lube-Lubricants**

---

**Particular lubricants for the application on phosphate layers for drawing and pressing. The range reaches from the classic soap lubricant up to its highly reactive modifications; it also reaches from the topical polymer lubricants up to special mixtures of solid lubricants for extremely high demands.**

**ST.RIZING-Lube Z              Soap lubricants with graded reactivity**

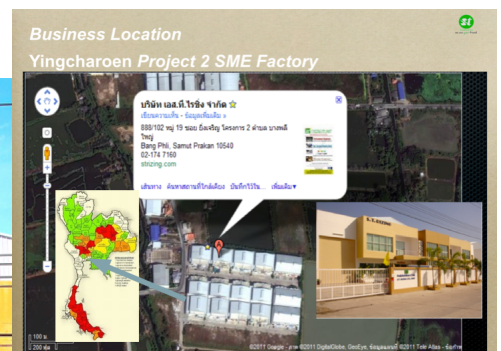

**ST.RIZING-Lube HZ          Soap lubricants with polymeric additives as  
„hybrid-soap“**

**ST.RIZING-Lube PD          Innovative polymeric lubricants as alternative  
to soap and solid lubricants**

Our performances are well accepted by our customers, universities and professional associations – in Germany and abroad. This motivates ourselves to belong to the top at any time. ST.RIZING fulfils the ideal pre-conditions for this high demand.

- Expert knowledge of more than 15 years in the chemical treatment of metal surfaces
- A team of committed specialists for best and quickest support
- Laboratory and pilot plant with best possible conditions for development and testing
- Quick transfer of innovations to the customers
- Consultancy and service regarding the technical progress and sustainable application of our processes
- Certified according to ISO 9001/14001/18001/16949

ผู้ผลิตและจัดจำหน่าย  
น้ำยาล้างคราบไขมัน  
และเคลือบผิวป้องกันสนิมโลหะ

Our products support the steel industry.
